

FIST-SPS

FIST single patchcord storage shelf

FIST is a Fiber Infrastructure System Technology.

The Single Patchcord Storage shelf, FIST-SPS is a mechanical shelf assembly for the FIST fiber management system in a rack environment.

The shelf is typically used to store random overlength of active patchcords in ODF installations without prior patchcord management.

The unit has the following features

- Can be installed in Tyco Electronics' FIST racks and other 19" or metric (ETSI) rack sizes
- Allows the individual storage of up to 24 patchcords (with connector) in wrap-around transparent cassettes
- Patchcords can enter the shelf left or right and exit the same way out or via the top of the shelf

Dimensions and capacity

Description	Dimensions			Storage Capacity *	
	H mm	W mm	D mm	patchcord \varnothing ≤ 2.4 mm	patchcord \varnothing > 2.4 mm
FIST-SPS	125	481	280	10 m	8 m

The shelf is painted (powder coated) in light grey (RAL 7035).

* Patchcord \varnothing range: 1.6 to 3 mm
