

FIST-GCO2

FIST generic closure organizer

FIST is a Fiber Infrastructure System

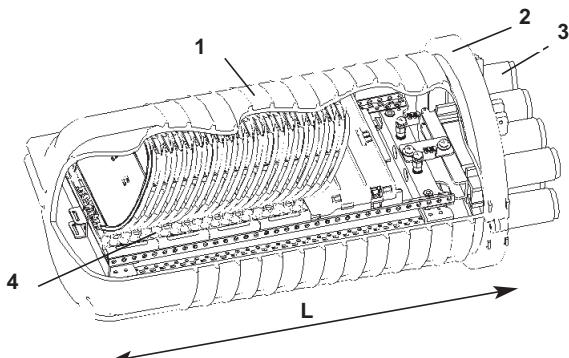

Technology.

The generic closure FIST-GCO2 is the environmentally sealed enclosure for the fiber management system that provides the functions of splice and passive component integration in the external network.

The FIST-GCO2 has the following functions and features

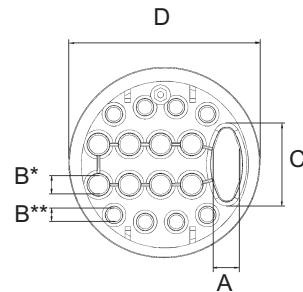

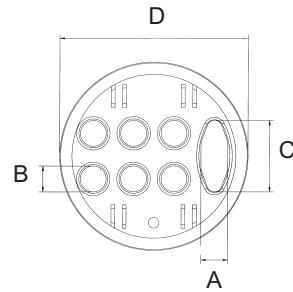

- Single-ended design
- Base and dome are sealed with a clamp and O-ring system
- 6 or 16 round entry/exit ports for drop cables and 1 oval port for looped cable
- The UMS (universal mounting system) profiles provide the foundation for mounting combinations of SOSA2 (splice only sub-assembly) and/or SASA2 (splitter array sub-assembly) modules, which consist of a modular grooveplate and trays
- Compatible with most common cable types: e.g. loose tube, central core, ribbon fiber
- Uncut fibers can be stored as single circuits in trays and/or as cable elements in the storage space between the profiles. Storage baskets are available for mass storage of fibers of central core cable constructions.

Dimensions and capacities

Key

- 1 Dome
- 2 Clamp
- 3 Base
- 4 Wrap-around grooveplates

How to order this product

1 Order one of the application kits

Application kits have been identified for an easy product selection and ordering. These kits contain all necessary items for a certain application and fiber count. Please refer to the FIST-GCO2 ordering guide for more information.

2 Order the closure and its accessories separately

FIST-GCO2- X X X - X X

Type

- BC** 488 mm long with two 28 units UMS
- BD** 566 mm long with two 42 units UMS
- BE** 680 mm long with two 58 units UMS

Number of round ports

- 6** round ports
- 16** round ports (8 : ø 20)
(8 : ø 13,5)

Flash test point

- V** Pre-mounted flash test point in dome
- N** No pressure relief valve

Ground feed-through

- G** Pre-mounted ground feed-through
- N** No ground feed-through

For a list of accessories, please refer to the FIST-GCO2 ordering guide
